Dental Implants

Some of you may know we have an Implant Dentist at the practice. Andy Hall qualified as a dentist in 1988 and went on to hold several hospital posts in the disciplines of Restorative Dentistry and Maxillo Facial Surgery. He has also held the post of Lecturer in Restorative Dentistry at the University of Bristol.

Andy has over 20 years' experience as an Implant Dentist and has a success rate that exceeds 99%. He is experienced in all the advanced aspects of the field including bone grafting and computer guided implant surgery. He was also the first clinician to adopt the PRGF technique for enhancing the body's own natural healing mechanisms. This significantly improves the healing after implant surgery.

If you would like any further information please contact the practice on 01491 202025.

Good Deed Toothbrushes

The practice has started to stock Good Deed Toothbrushes and for every toothbrush sold they give one to a child in need.

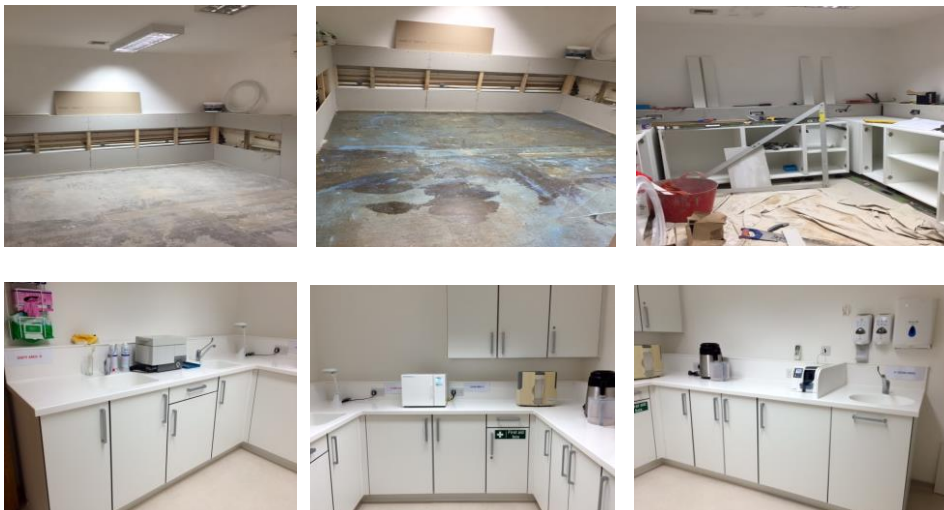

They primarily work in South Africa with vulnerable children in Cape Town townships but also with:

- Projects in the UK, helping supply London's homeless with toothbrushes
- Children and elderly people living in Mivasseret Zion, Israel
- Odessa Tikva Orphanage, Croatia
- Outreach Programme, Ghana
- Rwandan Orphanages

If you would like any further information on the charity please visit their website <http://gooddeed.info/>

New Sterilisation Room

During the past few months we have been investing money in a number of projects within the practice. One of these is a complete new sterilisation room.

Competition Time

Find the missing Word in this Wordsearch and you could win an Electric Toothbrush
